KOBELCO

Complies with the EU Stage V exhaust emission regulation

Built for Perfectionists™

A.

Performance Design

SK380SRLC of KOBELCO has realised a completely new value by harmonising PERFORMANCE and DESIGN.

Performance enhancements offer greater efficiency and productivity along with increased power and speed. Design improvements provide the ultimate in comfort and control.

KOBELCO refuses to compromise, creating machines that meet every challenge.

THE ULTIMATE IN SIMPLE DESIGN

In our pursuit of functional beauty and styling, we created an all new interior design focused with the operator in mind.

Jog dial

This dial integrates multiple functions into a single, easy to use interface. Even with gloves on, the operator can make the adjustments they need.

LED Illumination

Dials and buttons are now backlit to provide a bright, clear view in any lighting condition.

UNFORGETTABLE COMFORT

Air suspension seat

A GRAMMER* seat is installed as standard equipment, which achieves excellent shock absorption and superior ride comfort. *GRAMMER is trademark of GRAMMER AG. registered in Germany and other countries.

Multi Vent Air Conditioner

Cool air is blown from multiple outlets toward the operator's body for more comfortable operation.

Ergonomic Lever Angles

Operators can move levers horizontally without twisting their wrists, reducing fatigue.

New hydraulic control

Our newly upgraded hydraulic control system responds to shorter lever strokes than previous models, delivering swifter, more precise movement and improved lever operability.

LED Interior Light

Interior lights turn on and off automatically when the door is open or the ignition is turned to the OFF position. This ensures safe entry and exit in the dark.

Parallel wipers secure a wide field of view

SAFETY ON FULL DISPLAY

Standard 3 Sides Safety Camera System

Our high-resolution, large display shows right, left and rear side cameras together. Multiple display allows the operator to customize viewing needs to enhance operator awareness and jobsite safety.

Large 10-Inch Color Monitor

The easy-to-operate menu screen and recognizable icons assist the operator to select the most important information needed to ensure jobsite safety and machine control.

IDEAL FOR URBAN WORK SITES PROVIDES A BROAD WORKING RANGE

Minimal swing radius improves efficiency

The tail of the upper body extends very little past the crawlers, so the operator can concentrate on the job at hand. This also reduces the risk of collision damage.

Easy workability even in Close Quarters

The compact design allows continuous 180° dig, and load operations within a working space of just 5.35m.

Figures above show the value for standard boom and standard arm spec.

EXPERIENCING A COMPETENT PERFORMANCE

Higher Efficiency, plus a EU Stage V Compliant Engine

The new SK380SRLC is equipped with a Stage V compliant engine, which has a higher torque value. Superior balance between engine output and torque contributes to more efficient performance than the previous models.

In addition, the DPF maintenance interval has been extended.

Model: ISUZU 6HK1

Engine output 210 kw / 1,900 min⁻¹

Power Boost

When you need more power instantly, engage Power Boost to get 10% more power with no time limit.

Max. Bucket Digging Force (Arm 3.10 m) 189 kN 208 kN Normal: With Power Boost: Max. Arm Crowding Force (Arm 3.10 m) 126 kN 139 kN Normal: KOBELCO With Power Boost:

EXCELLENT LIFTING PERFORMANCE IN NARROW SPACES

Drawbar Pulling Force (SAE) Excellent drawbar force lets you conquer rough terrain and slopes.

314 kN

Lift Capacity

12,390 kg (Reach: 6.00 m Boom: 6.20 m Arm: 3.10 m Bucket: Without Shoe: 600 mm <Heavy Lift> At Ground Level)

KOBE

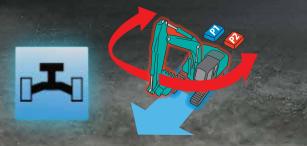

#3655Rc

Heavy Lift

This switch is used when lifting a heavy load and power is required for it. Heavy Lift provides 10% more hydraulic pressure and provide greater lifting power at close radius. This allows for a smooth and steady operation while moving heavy objects.

Independent Travel

Selecting Independent Travel dedicates one hydraulic pump to travel and one to the attachment on a continuous basis, allowing for a smooth and constant movement speed even while swinging or using the boom or attachment. With Independent Travel, safely carrying a large pipe across a job site is a breeze.

GREATER MULTI-FUNCTION CAPABILITIES

Attachment mode selection

The auxiliary flow rates for the bucket, breaker, nibbler, and rotating are all now adjustable by the operator through the monitor, allowing you to change tools quickly and easily. Mode settings for other attachments like the tilt rotator can be added or changed.

KOBELCO

Note:

1. Do not attempt to lift or hold any load that is greater than these lift capacities at their specified lift point radius and heights. Weight of all accessories must be deducted from the above lift capacities.

2. Lift capacities are based on machine standing on level, firm, and uniform ground. User must make allowance for job conditions such as soft or uneven ground, out of level conditions, side loads, sudden stopping of loads, hazardous conditions, experience of personnel, etc. 3. Bucket pin attachment point defined as lift point.

4. The above lift capacities are in compliance with ISO 10567. They do not exceed 87% of hydraulic lift capacity or 75% of tipping load. Lift capacities marked with an asterisk(*) are limited by hydraulic capacity rather than tipping load.

5. Operator should be fully acquainted with the Operator's and Maintenance Instructions before operating this machine. Rules for safe operation of equipment should be adhered to at all times.

6. Lift capacities apply to only machine as originally manufactured and normally equipped by KOBELCO CONSTRUCTION MACHINERY CO., LTD.

Note:

1. Do not attempt to lift or hold any load that is greater than these lift capacities at their specified lift point radius and heights. Weight of all accessories must be deducted from the above lift capacities.

2. Lift capacities are based on machine standing on level, firm, and uniform ground. User must make allowance for job conditions such as soft or uneven ground, out of level conditions, side loads, sudden stopping of loads, hazardous conditions, experience of personnel, etc.

Bucket pin attachment point defined as lift point.

4. The above lift capacities are in compliance with ISO 10567. They do not exceed 87% of hydraulic lift capacity or 75% of tipping load. Lift capacities marked with an asterisk(*) are limited by hydraulic capacity rather than tipping load.

5. Operator should be fully acquainted with the Operator's and Maintenance Instructions before operating this machine. Rules for safe operation of equipment should be adhered to at all times.

6. Lift capacities apply to only machine as originally manufactured and normally equipped by KOBELCO CONSTRUCTION MACHINERY CO., LTD.

SK380SRLC-7

Standard and Optional Equipment

●=Std ○=Opt

		SK380SRLC-7
Category	Description	Mono Boom / 2 Piece Boo
NGINE	ISUZU 6HK1 engine (EU Stage V compliant)	•
	Exhaust DOC DPF SCR system	•
	Alternator 24 V /90 A	•
	Starter motor 24 V/5 kW	•
	Batteries 2 x 12V (140Ah)	•
	Fan suction type cooling system	•
	Auto deceleration function	•
	Auto Idle Stop (AIS)	•
DRAULIC SYSTEM	3 work modes H, S, Eco	•
	Power boost (37.8 MPa)	•
	Heavy lift mode	•
	Pressure release function	•
	Independent travel function	•
	Auto warm up system	
	Proportional Hand Control (for E & N&B piping)	
		•
	Hydraulic oil VG32	_
	Hydraulic oil VG46	0
	Hydraulic oil VG68	0
ING	E & N&B piping	•
	QH piping	•
BIN	Air suspension seat with heating	•
	10 inch colour monitor	•
	LED door light	•
	Air-conditioner	•
	DAB+ radio (FM/AM & AUX & USB & Bluetooth [®] & hands free telephone)	•
	Harness for cab four lights and cab yellow flasher	•
	Parallel wiper	•
	12V power outlet	•
	Rain visor	0
	Sun screen	•
	Large footrest	
iHTS	LED work lights ; 2 on boom, 1 on upper frame, 2 on rear counterweight	•
		_
	LED work lights ; 2 on cab top front	
RKING EQUIPMENT	Standard Boom (6.20 m)	•
	2 Piece Boom	0
	Standard arm (3.10 m)	•
	Short arm (2.40 m)	0
	Bucket link with lifting hook	•
UNTERWEIGHT	Standard C/W	•
DERCARRIAGE	600 mm steel shoe	•
	600 mm double grouser shoe	0
	700 mm steel shoe	0
	800 mm steel shoe	0
	850 mm steel shoe	0
	Track guide (one per side)	•
	Additional track guides (two additional per side)	0
	Lower frame guard	•
FETY	Engine emergency stop switch	•
	Pump emergency mode (KPSS release switch)	
	Emergency accel dial	
	Emergency accel data Emergency manual valve for lowering attachment	
	Overload alarm	•
	Safety valve for boom & arm cylinder	•
	ROPS compliant cab (ISO 12117-2:2008)	•
	OPG Level II top guard (ISO 10262;1998)	•
	OPG Level II front guard (ISO 10262;1998)	0
	Eagle-eye view camera (Rear, Right, Left)	•
	Seatbelt indicator on display	•
	Travel alarm	0
	Emergency escape hammer	•
HERS	Refueling pump	•
	Harness for engine room light	•
	RAL color	
	KOMEXS	•
