

We take care of every detail

KOBELCO

Straightforward cover

- The Extended Warranty Programme is administrated in-house by Kobelco without the need for a third-party underwriter.
- Your machine is completely covered under the same conditions as the standard base warranty.

Kobelco maintenance and repairs

- Maintenance and repairs are carried out by an authorised Kobelco Dealer using Genuine Parts.
- We monitor your machine using our KOMEXS / KSCAN telematics system. This allows us to detect any abnormalities in advance in order to prevent failures and minimise downtime.

Lasting value

- Your Extended Warranty is fully transferable at no extra cost through an authorised Kobelco Dealer.
- With advance insights into maintenance costs, it's easier to predict and manage expenses throughout the ownership of your machine.
- The Kobelco Extended Warranty Programme is an asset which can help increase the resale value of your equipment.

KOBELCO

Long-term protection for your investment

Kobelco Extended Warranty

Built for Perfectionists™

Designed by Kobelco for perfect peace of mind

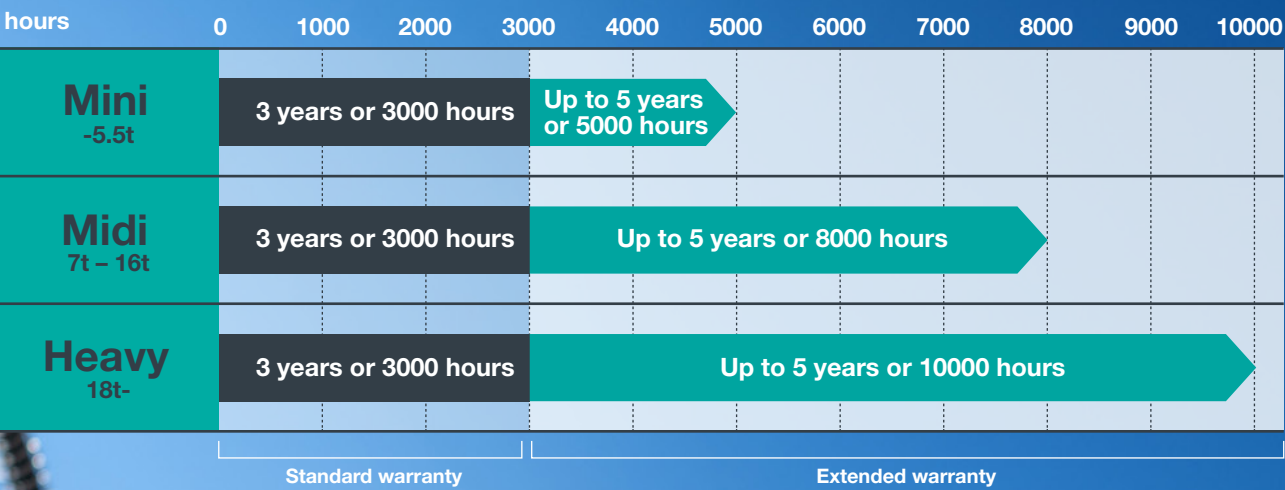

Just like every Kobelco machine, the Kobelco Extended Warranty Programme is designed to enhance productivity, performance and profitability for our customers. It allows you to prolong your basic machine warranty beyond the standard three-year period, with the same component coverage and conditions, protecting you in the event of any defects due to faulty materials or workmanship.

When you purchase a Kobelco Extended Warranty, you will benefit from simplified administration and more efficient time and cost management. In the event of an issue, repairs are facilitated quickly and conveniently through your Kobelco Dealer using Kobelco Genuine Parts. No unnecessary delay, no complicated paperwork and need to deal with a third party!

Why stop after three years?

Every new Kobelco machine purchase is covered by a Standard Warranty for a period of 36 months. The Extended Warranty Programme gives you the flexibility to enjoy the same component coverage and conditions for a longer time period. This allows you to predict costs better and minimise risks related to unexpected machine failure.

Tailored planning for your machine

This program is available for a product within six months or 500 hours from the delivery retail date.

NOTE
For the details of this programme, please contact an authorised Kobelco Dealer. This document is for informational purposes only. The customer may not derive any rights from it. In a case of conflict between provisions of this document and a contract concluded by a customer with a Kobelco Dealer, the provisions of the contract shall prevail.
